## WORK EXPERIENCE

### SOFTWARE DEVELOPER

NC State University - Biomedical Engineering Dept.  
09/2019 - 12/2020 | RALEIGH, NC

Accepted a contract opportunity to build a two-part undergraduate advising app in React that features a google firebase integrated graphical database for administrator use and a complementing render of a curriculum dashboard for student-end use.

- Advanced data manipulation functionality such as
  - Multiple object selection
  - Undo history buffer
  - Field searching and sorting
  - Excel/CSV file interpolation
- Utilized Context API
- Advanced function based hooks

### CABLING & IT TECHNICIAN

JET Networkx  
07/2015 - 08/2016 | DURHAM, NC

During employment, offered web design capabilities to improve UI/UX design of company website and set up user login for ticket system. Original duties featured configuring networks, VoIP installation, structured cabling, and server room installation.
